Student Name: Rohan Verma | Roll Number: ROLL-103

Class: XI-A | Subject: Physics Midterm | Answer Sheet Page 1 of 2

Ans 1 Newton's 2nd Law states that force is directly proportional to acceleration.

F = m * a.

Ans 2 a = 20 / 10 = 2 m/s^2.

F = 1500 * 2 = 3000 N.

Ans 3 W = F * d = 50 * 6 = 300 J.

Work done is 300 Joules.
